GETTING STARTED ONLINE

Select the Community option via your Pod to start exploring amazing new levels online with other LittleBigPlanet™ fans. While you're online, it's worth keeping these simple pointers in mind...

- The first person to enter a level automatically becomes the host and between levels their personalised Pod will become the group's lobby.
- If the host chooses to go somewhere, be it from the Pod to a level or from a level to the Pod, all other players will automatically follow.
- Players invited to join the group will not become hosts.
- If anyone leaves the group, all players will be asked if they would like to follow that particular player.
- You can see who you are following via the Player Management Menu. This can be accessed by pressing the START button and selecting Manage Players.

NOTE: you must complete all of the levels in Da Vinci's Hideout to access the online community. To alter your online settings, press the START button to access the Start Menu, then select "Settings" and "Online Play".

THE GOOD GRIEF! MENU

The Good Grief! Menu is the best way to report any offensive content uploaded by other players online. Press the SELECT button at any time and the Good Grief! Menu will be displayed, through which a grief report can be submitted directly.

SACKBOY'S PREHISTORIC MOVES™

Are you ready to play through 10 additional LittleBigPlanet™ levels enhanced by the power of PlayStation®Move? Select the 🎮 icon from the XMB™ Menu, highlight "Sackboy's Prehistoric Moves™" and press the ⊗ button to confirm.

You'll need two players to get going: one to control Sackboy with a Wireless Controller and the other to control objects and gizmos with a PlayStation®Move motion controller. Follow the video tutorials and you'll be playing like pros in no time at all.

Where you see either symbol on any of our electrical products, batteries or packaging, it indicates that the relevant electrical product or battery should not be disposed of as general household waste in Europe. To ensure the correct waste treatment of the product and battery, please dispose of them in accordance with any applicable local laws or requirements for disposal of electrical equipment/batteries. In so doing, you will help to conserve natural resources and improve standards of environmental protection in treatment and disposal of electrical waste.

This symbol may be used on batteries in combination with additional chemical symbols. The chemical symbols for mercury (Hg) or lead (Pb) will appear if the battery contains more than 0.0005% mercury or more than 0.004% lead.
